

# That's How It Is

## Grace Slick & The Great Society

Well I hear shoutin'  
And Crowds a cheering  
There's so much laughter I feel so high I think  
I'll not come down  
for ever after. Thoughts in my head  
Gonna dance high above Me  
I really do believe that everybody loves me  
And the funny thing is,  
That's how it is. Well there's a love song singing  
Through the soft green grasses,  
But it's far behind me  
Relaxing my eyes as they reflect on the sky  
and it almost blinds me.  
Open My eyes and the sun comes up  
Seems the hole world shaking like a Happy pup  
And it cracks me up  
that's how it is. Well There's a whole new set of dues  
Each time I get outta bed And There's no question about it,  
I'm outta my head Well I sometimes wonder what this trip I'm under  
Is All about now My Mind is thumping  
yeah my brain is jumping  
Like an over the moon cow And When I wanna Leave  
I never used that door  
I opened up the room  
and out that door  
Now don't you say ain't so  
That's how it is  
Well There's a whole new set of dues  
Each time I get outta bed And There's no question about it,  
I'm outta my head Well I sometimes wonder what this trip I'm under  
Is All about now My Mind is thumping  
yeah my brain is jumping  
Like an over the moon cow And When I wanna Leave  
I never used that door  
I opened up the room  
and out that door  
Now don't you say ain't so  
That's how it is
