

Slippin' Away

Chris Hillman

Back in my old home town
There were long summer days
And there were leaves on the ground
 And it was too cold to play
 The city's colder than cold
 It's faceless and gray
And all the dreams that you hold
 Keep slippin' away
Chorus:
Slippin' away, slippin' away
 Little by little, day by day
Slippin' away, slippin' away
 Little by little and day by day
 I saw an old friend of mine

Asked if he was ok
And he said everything's fine
But his eyes filled with pain
Yeah, he had nothin' to lose
 He had nothin' to say
He feels worn out and used
 And slippin' away
Chorus
Better put up a fight
Start right here today
It's time you start right
Before you just slip away
 Chorus x 2
