My Friend John

Ryan Cabrera

Everybody said I can only dream so much,
Well I asked my friend John
and he said he don't want to go now,
If thats the case, then get me out of this place
I don't ever want to grow up, that is why
[CHORUS] I'll leave my window open for you,
Come around I've got space for two,
I'll leave my window open for you,
So what are you gonna do?

Everybody knows I would always think too much,
I asked my friend John
and he said "don't you know love?"
Because if you aim so high,
then nothing can fly by,
You won't ever want to come down so.
