

Heaven

Lamb

Soon come soon, sweet so sweet
Falling soft between the sheets This could be Heaven right here on earth
This could be Heaven
This could be Heaven right here on earth
This could be Heaven Please you please, mine be mine
Forever and all time This could be Heaven right here on earth
This could be Heaven
This could be Heaven right here on earth
This could be Heaven Sleep to sleep, sigh on sigh
On a lover's lullaby This could be Heaven right here on earth
This could be Heaven
This could be Heaven right here on earth
This could be Heaven This could be Heaven
This could be Heaven
This could be Heaven
