

# Kids (Rise From the Ashes)

Ed Harcourt

Kids, you're our only hope  
Save us now, we need an antidote  
Kids, get out on the streets  
Through the smoke rise through the city heat  
You loved me like a friend  
But now I can't pretend  
The time we used to spend  
Was wasted on you  
Police sirens make me deaf  
As I run, trying to catch my breath  
What's the world afraid of now  
We are taught to clap our hands and bow  
You loved me like a friend  
But now I can't pretend  
The time we used to spend  
The time we used to spend  
Was wasted on you  
Rise through the ashes with a song to remember  
Rise through the ashes with a song to remember  
Rise through the ashes with a song to remember  
Kids, you're our only hope  
Kids  
Kids  
Kids
