

# I.S.A.A.C.

## Tahiti 80

I return home with special food for my spirit  
My presence will pass into eternity We'll never be younger than today  
Tomorrow's yesterday, it's never too late You write your pretty songs  
Just to discover what you wrote  
You did something when you were younger We'll never be younger than today  
Tomorrow's yesterday, it's never too late Everything is over now  
Everything is over now We'll never be younger than today  
(And today's left us so fast)  
Tomorrow's yesterday, it's never too late
