

# Purpose

## Darryl Reeves

I believe in your purpose baby  
Coming up to the surface and maybe  
I'll never see you again, then again who knows  
Make me quiver, hands'll shiver  
Still got all the things that I woulda give her  
Yeah, yeah but it's slow going  
Something's showing yeah, yeah  
They say love is a stream that will find its own course  
Making due is a thing, a thing I will do no more  
Whenever you come back I'll be waiting  
Trifling the slack no head gating  
This is all pure fiction you know that's right  
Just pure fiction, that's all right  
I believe in your purpose baby  
Coming up to the surface and maybe  
I'll never see you again, then again who knows  
Make me quiver, hands'll shiver  
Still got all the things that I woulda give her  
Yeah, yeah, but it's slow going  
Something's showing yeah, yeah
