

Fade to Blue

[LeAnn Rimes](#)

I think I know the way
The story's gonna end
It's getting to the part I hate
When heartache closes in The stage is set
It's time for me to leave
'Cause I don't wanna see
The final scene Fade to blue
We didn't make it through
Let the curtain fall
And fade to blue We played the part of lovers
Knew every line by heart
But sometimes love just can't erase
What's written in the stars So before the bitter words
Come crashing down
Let's leave what's left
And the lights go out And fade to blue
We didn't make it through
There won't be a curtain call
Just fade to blue Almost happy endings
Have no way of coming true
Once the feelings
Starts to fade to blue We didn't make it through
So let the curtain fall
Just fade to blue
And fade to blue
