Morning Train

John Prine

I saw you all dolled up
Singing a song in your pickup truck
You put me on a morning train
You put me on a morning train
Ain't no need to explain
You put me on a morning trainHey, hey, Brother Ray
What'd you mean by, what'd I say
You put me on a morning train
You put me on a morning train
Ain't no need to explain
You put me on a morning trainIf it's gonna rain and I wish that it would
Just go ahead and rain, get it over for good
If there's really a hole in that big blue sky
Then move it on over and let me byConstantinople is a mighty long word
Got three more letters than mockingbird
You put me on a morning train
You put me on a morning train
Ain't no need to explain
You put me on a morning train
