

# Angel Leads Me On

## Big Head Todd And The Monsters

We keep each other in the air  
And from there we're afraid of falling down  
She don't believe I really care  
Oh, she'll be runnin' as soon as we reach the ground But her angel leads me on and on and on  
'Til I find her lovin' arms Just when I think it's safe to doubt  
I turn about and find I've been left behind  
There's only so long I can go without  
Like a fool I shout instead of cryin' But her angel leads me on and on and on  
'Til I find her lovin' arms A home sinking in the sand  
It hurts to understand where I went wrong  
So I'll believe with an empty hand  
I'll receive at last what I can't own But her angel leads me on and on  
Oh, but her angel leads me on, oh  
'Til I find her lovin' arms
