

# I've Been Waiting for You

Dannii Minogue

I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you Place you on a pedestal  
My discovery, I pray  
Angel with a dirty face  
And a natural love  
All my senses sway Let me find you  
Let me take you  
Let me show you This love is the only one  
That never hurts  
I pray  
Somebody to shelter me  
To follow me  
Like a non-stop game Let me find you  
Let me take you  
Let me show you All my patience  
All my trouble  
All my passion I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you Diving in the mystery  
I wet my feet  
I pray  
You kingdom enchants me  
Like a memory  
And your eyes will sing Let me find you  
Let me take you  
Let me show you All my patience  
All my trouble  
All my passion I've been waiting for you  
I've been waiting for you  
I've been waiting for you  
I've been waiting for you Let me find you  
Let me take you  
Let me show you Let me find you  
Let me take you  
Let me show you Let me take you  
Let me take you I've been waiting for you

I've been waiting for you  
I've been waiting for you  
I've been waiting for you
