

# Durban Skies

## Bastille

All that we got to be thankful for  
All that we got to be thankful for  
In the heat, try to love these streets  
In this town, it all went down  
Our chromosomes in sepia tones  
In my mind, in my mind  
Where you lead your lives  
Before from our small island  
Brought right back to these shores  
To these shores, to these shores [Chorus]  
It's alive, It's alive  
When I see it through your eyes  
It's alive, It's alive  
Now I understand your lies  
Will you take me there  
You show me the city  
I see it through your eyes  
Will you take me there  
We drive through the city  
Beneath the Durban Skies  
Oh oh oh..

All that we got to be thankful for  
On the day you made your vows  
The heaven's open, the rain poured down  
Down, Down  
Grey and brown, the seventees  
The suits you wore, and the ones you love  
Were so young, were so young, boy [Chorus]  
It's alive, It's alive  
When I see it through your eyes  
It's alive, It's alive  
Now I understand your lies  
Will you take me there  
You show me the city  
I see it through your eyes  
Will you take me there  
We drive through the city  
Beneath the Durban Skies  
Oh oh oh..

All that we got to be thankful for  
Oh, all that we got to be thankful for  
All we got to be thankful for [Chorus]  
It's alive, It's alive  
When I see it through your eyes  
It's alive, It's alive

Now I understand your lies  
Will you take me there  
You show me the city  
I see it through your eyes  
Will you take me there  
We drive through the city  
Beneath the Durban Skies Will you take me there, ooh  
Will you take me there  
It's alive, It's alive Will you take me there  
It's alive, It's alive
