Crush

Inkubus Sukkubus

With love and fire
Untimely Messiah
I fought passion, desire
You never tiredThrashing like a demon
Steel is slashing through my veins completely
Crashing like a storm against my heart
You caress my body with a
Thousand salty kisses, stinging
Every poisoned one shall leave its markLive to destroy
Destroy all to thrive
In your bloody harvest
Love is the scythe
Hold back your passion
From love I'll surviveYou're crushing, you're rushing
With fury hard against my heart
Defenses are strengthened
No earthly man can leave a scar
You're crushing, you're rushing
With fury hard against my heart
Your love can only tear apart
