Pissed Off Rednecks Like Me

Jamie Jones

Mr. stick-head politician
I got some news for you
If you want to come and
Try to take my gun
Well you better be bulletproof
And don't try to tell my children
When and where to pray
We ain't that far gone
We're still standing on
The land of the free
And the home of the brave
No, I'm not your normal political society
This is coming from real America, son
And pissed off rednecks like meHell No, I won't push one for English
I just as soon hang up the phone
If you wanna serve in a Muslim church
Go and take your ass back home
Take yourself to work if you're able
Instead of living off our dime
This 'give me a hand out' generation
Is gonna bleed this country dry
Yeah, I think it's time that we change your policy
This is coming from real America, son
And pissed off rednecks like meAs for most of us
It's still in God we trust
Here on this hallowed ground
Get up and give thanks in the morning
And we work till the sun goes down
Things have got to change
We can't sit back idly
This is coming from real America, son
And pissed off rednecks like me*Break*
