

How Does The Wine Taste?

Barbra Streisand

How does the wine taste?
Does it stain your lips?
What is the fruit-like?
Just beyond my finger tips? Just out of reach, I see so much
I cannot taste and mustn't touch
Tied to my little world
My safe little world What would it be like
If I broke the string?
Would it be lovely
And a little frightening? There is so much I've never understood
How does the wine taste? Is it good? How does the wine taste?
Does it make you glow?
How does the wine taste?
How does the wine taste?
How does the wine taste?
I think I know
