

# Sunshine

[Skrape](#)

Outside it's freezing

Inside it's cold

No one to keep me warm

My bones are old

All day the cold stays

And someday I won't wait Sunshine inject my mind warm me I can't feel my hands Sunshine inject my mind  
warm me I sit around and watch the snow

I see the sun come out then go

I wish this really was not so

But falling down on the ice

Means it's melting slow Sunshine inject my mind warm me
