

Play Dead

James

[music depresses me]
Help's on it's way, I'm lost in space
 No protection
 Please come and rescue me
 I've got no friends, an orphan
 Who had faith, who betrayed
 Took only a kiss to give me away
 Who had faith, who betrayed
 Took only a kiss
 To blow you awayAll in my head
 I'll play dead, if you want me to
 If you want me all in my head
 I'll play dead, if you want me to
 If you want meWho had faith, who betrayed
 Took only a kiss to give me away
 Who had faith, who betrayed
 Took only a kiss
 To blow you awayAll in my head
 I'll play dead, if you want me to
 If you want me all in my head
 I'll play dead, if you want me to
 If you want me
