Breathe

[Nickelback](#)

Two men
They started walking
Started talking 'bout better days
One says to the other
"We do it all again"
Sems I knew I would
And now I found it, found I got it
I didn't want this
Somebody help me see
Now I feel it
Feel like I've been there
I didn't need this
Somebody help me breathe
Here we are again
Just face to facing each other another day
Who wins, well who cares
It always ends up the same
Seems I knew I would
And now I found it
Found I got it
I didn't want this
Somebody help me see
And now I feel it
Feel that I've been there
I didn't need this
Would Somebody help me stand
And now I've told them
Already warned them
I didn't want this
Somebody help me breathe
If I was them, then I wanna be
What I see
If I could drag my life in a moment
Wanna know do you want me to go
Gonna keep it all from ending
Never stop myself from pretending
That you always knew that I never could
All I ever really wanted was to be the same
Equal treatment never ever comes

and there they go again
All I ever really wanted was to be like you
So perfect, so worthless
If I could take it all back think again, I would
And now I found it
Found I got it
I didn't want this
Somebody help me see
Now I feel it
Feel that I've been there
I didn't need this
Somebody help me stand
And now I've told them
I didn't want this, I didn't need this
Would somebody help me breathe?
Would somebody help me breathe?
Would somebody help me?
