

Whirlpool

Seal

She don't know
Yo' momma would
Yeah, yeah, oh, no, no
Won't a child know, won't a child I wake out of a whirlpool
I walk into another day
And then I feel better Because you came to stay
I almost threw my life away
Thinking of what might be
If I lose my destiny Would I feel better than I might be?
Would I see clearer than my eyes would see?
Oh, I, if I showed I love you, angel? Like a square in a circle
I try to find another way to win
I try to make better way
To the castle that I make Where the moon lights the way
And it's invisible by day
I hear temptation sing, yeah
Just let go and I will take you there Now would I feel better than I might be
Would I see clearer than my eyes would see? Yeah Oh I, if I showed I love you, angel, yeah
If I fell in love with angel?
If I showed I love you, angel? Now would I feel better than I might be
Would I see clearer than my eyes would see? Yeah Oh I, if I showed I love you, angel
If I took your piece of angel
If I fell in love with angel? Life is hard in a circle
Especially when you think you've gone insane
And all you get from love is lots of pain
I should have known better Better, better, better
Better, better
