Sunflower Man

The Waifs

I'll never forget I was singing in the streets
You laid a sunflower in the case at my feet
Threw a smile and you rolled right away
People cheered on the day that I fell in love
Yeah I fell in love
My head was heavy my clothes they were torn
I'd never felt like anybody's princess before
If you knew how much you blew me away
I'd want to go and relive that day
It was the day that I fell in love
Yeah I fell in love
Oh Sunflower Man, throw me a dollar, reach out your hand
Lay a big sunflower down at my feet
It was a buskers dream the way I fell in love
I fell in love, when I fell in love
The day you gave that big sunflower to me
We lay together and we spoke till the dawn
We spoke of poetry and we sung some songs till the daylight came
I'm not always good at saying how I feel
This song to some people it's not a big deal
But you know who it's from and you know who it's for
I was a poor lonely busker the day I fell in love
Yeah I fell in love
Close your eyes lay your head in my lap
You know I really love that
I thank God for the day that I was singing in the street
I earnt twelve dollars, a sunflower and you to keep
And I fell in love, I fell in love, I fell in love - and I'm still in love
