Hello Like Before

Bill Withers

Hello like before
I'd never come here
If I'd known that you were here
I must admit though
That's it's nice to see you, dear
You look like you've been doing well
Hello like before
I hope we've grown
'Cause we were only children then
For laughs I guess we both can say

'I knew YOU when'
But then again, that's kiss and tell
Hello like before
I guess it's different
'Cause we know each other now
I guess I've always known
We'd meet again somehow
So THEN it might as well be now
