Deception

Monophonics

Where you beenWhat you been to
Seems while you were gone
I found a clue
You've been lying in bed
But you been lying to my face
Telling me you were here
When you're really at his place
All the trust is gone
And there goes the truth
Here comes all the stories
But baby I got the proof
The mascaraed is over
And so goes being true
What's the lesson we learn
Lying only hurts youDeception
That's gonna be the death of our love
Deception
That's gonna be the death of our love
Your Deception
That's gonna be the death of our love
See all this deception
It's gonna kill off
Oh this good thing
I not gonna ask you again
Cause I already know
You've been loving another
Left me heart in the killing floor
Tried to plead your case
But your covers blown
Deceit only get you one place
Oh baby that's on your own
All the trust is gone
And there goes the truth
Here comes all the stories
But baby I got the proof
The mascaraed is over
And so goes being true
What's the lesson that we learned
Lying only hurts youDeception

That's gonna be the death of our love
Deception
That's gonna be the death of our love
Your Deception
That's gonna be the death of our love
See all this deception
It's gonna kill off
Oh this good thing
Mistakes are made
Oh and games are played
But baby baby you went too far
The day you come crawling back to me
That's the last day you lie
And the day I hold you again
That's the last day I cry
Where you been
What you been to
Seems while you were gone
I found me a clue
You've been lying in my sheets
But you been lying through your teeth
Telling me you were here
When it's really all deceitDeception
That's gonna be the death of our love
All your Deception
That's gonna be the death of our loveDeception
That's gonna be the death of our love
See all this deception
It's gonna kill off
Oh this good thing
