

Like That, Like That

C.Nichole

I tell you, every day
They can't compare, to your ways
I've dated, all types of guys
But now I know, you're my only typeCuz you, grind hard for us
Cuz you, never abuse my trust
Cuz you, don't give these heffas a chance
Cuz you, love me for who I am
And you, are intelligent
And you, also have common sense
And you, are a handsome gent
And you, keep God within
And that's whyYou know that
You know that, I got yo back, like that, like that
You know that
You know that, you'll never fall, I'm with you, through it all
You know that
You know that, I'll never go, oh no, no no
You know that
You know that, I'll keep you close, I even draw hearts in the smokeYou tell me, every day
That no one, could take my place
Because you've, looked high and low
And no one, even came closeCuz I, grind hard for us
Cuz I, never abuse your trust
Cuz I, give no chance to these dudes
Cuz I, love you for you
And I, am intelligent
And I, also have common sense
And I, am attractive
And I, keep God within
And that's whyI know that
I know that, you got my back, like that, like that
I know that
I know that, I'll never fall, you're with me, though it all
I know that
I know that, you'll never go, oh no, no no
I know that
I know that, you'll keep me close, you always sight me though the smokeI would definitely
Go to war for you
Count that as a day

Where I win, they lose
Try to stop us
We just laugh at them fools
Dispel rumors
Block ignorant views
Gotta keep us strong
Protect us from wrong
We stay prayed up
It takes way more than luck
They wanna see us down
They wanna see us part
But the foundation was
Built right from the start(In the background) I would definitely
Go to war for you
Count that as a day
Where I win, they lose
Try to stop us
We just laugh at them fools
Dispel rumors
Block ignorant views
Gotta keep us strong
Protect us from wrong
We stay prayed up
It takes way more than luck
They wanna see us down
They wanna see us part
But the foundation was
Built right from the startYou give more than, you do take, I like that babe
And you know, I appreciate that
I give it right back
That's why our love
Is where it's atYou know that
You know that, I got yo back, like that, like that
You know that
You know that, you'll never fall, I'm with you, through it all
You know that
You know that, I'll never go, oh no, no no
You know that
You know that, I'll keep you close, I even draw hearts in the smoke
