

Lost In Space

Dune

Start up everybody now
We are here and lost in space
We're gonna leave our home base now
So just look out, face to facePlease clap your hands and stamp your feet
We are losing our control
We're going now right to the sun
So please give me a callStart up everybody now
We are here and lost in space
We're gonna leave our home base now
So just look out, face to facePlease clap your hands and stamp your feet
We are losing our control
We're going now right to the sun
So please give me a call
