Slow Goodbye

Lesley Roy

I can read the lines on your face and theyre telling me
Everything I already know, yeah
I hold you in my arms but you're light-years away from me
Slowly sinking under alone, yeahSo I act cool on the outside
But its eating me alive'Cause when it comes to you theres nothing I can do
I cant make you love me when you dont
I see it in your eyes all the compromise
No, I cant take another slow goodbyeSitting in the park after dark
Smoking cigarettes, biting on the black of my nails
'Cause all I ever wanted was what you took away from me
Trying to make it right but its too lateIm a hopeless case on the inside
And its eating me alive'Cause when it comes to you theres nothing I can do
I cant make you love me when you dont
I see it in your eyes all the compromise
No, I cant take another slow goodbyeI die a million times, every time when you look me in the eye
I die 'cause Ive heard it all before
The same game going around and around
But I still end up with nothing but hurting'Cause when it comes to you theres nothing I can do
I cant make you love me when you dont
I see it in your eyes all the compromise
No, I cant take another slow goodbyeNo, theres nothing I can do
I cant make you love me when you dont
I see it in your eyes all the compromise
No, I cant take another slow goodbye
