If This Is Love

Australian Crawl

Once you realise the mess you know you're in it
Once you realise you know your time has come
Don't come back don't even try it
You'll be wasting all of our time
Once you realise that moves that you been making
You just don't know what to do
Once you realise that love ain't worth savin
And nobody's coming for you
Don't come back
Can't stay tonight

Don't come back
Don't even try it
Once you realise the mood of your predicament
Once you realise your numbers really through
Don't be sorry coz you really started it
And nobody's coming for you
