

# I Will Know Your Love

**Beth Nielsen Chapman**

Ten thousand nights of darkness  
In the ether underneath this garden  
You are my hearts calling, hey One star in a million  
One voice in a thousand  
I will know your love  
I will know your love I've sailed on this ocean  
So long alone  
But I will know your love  
I will know your love I will know your voice  
I will know your touch  
I know this much  
I know I will know your love One chance that'll come by  
One dance in your arms  
And I will know your love  
I will know your love The tender kiss  
Deep from the soul  
For only this  
My heart unfolds I will know your voice  
I will know your touch  
I know this much  
I know I will know your love One star in a million  
I've got a feeling  
I will know your love  
I will know your love  
I will know your love I will know your love  
I will know your love  
I will know your love  
...
