Miserable

VictoriaDrive

Are you really serious right now?
You wanna fight about this again
Feels like the hundredth time
You're making me lose damn my mind
We used to to sit in parking lots
Wishing for everything we haven't got
But now we're all grown up And miserable
I can't believe we're all still here
At this same place every year
I've been here for so long
But I'm still writing the same old songs
Everything that I do It's only to get over you
I've waited for too long
So tell me baby where did we go wrong?
We used to meet up after school
Thinking that everything we did was cool
But now we're all grown up and miserable
