

# Little Town

## Mad Caddies

People live on the edge  
What they're doing free  
And looking back  
it's always just the same old tragedy Every time I tried, it wasn't hard enough  
And even if it was  
I don't think that words speak loud enough  
you thought they were coming from love In this little town  
You see a thousand lives get torn up and turned around  
whooo-o-o-oaa  
In this little town  
I can see your heart still beating from underground  
whooo-o-o-oaa  
Another day goes by but nothing changes  
so we suffer by ourselves  
You see a friend and not looking good  
but they say they're doing well  
I can see the pain where I'm at  
but I can't hear the lies  
the silence sets in and the sorrow begins  
when another good kid dies In this little town  
You see a thousand lives get torn up and turned around  
whooo-o-o-oaa  
In this little town  
I can see your heart still beating from underground  
whooo-o-o-oaa Disgruntled hearts  
misguided youth  
forgotten souls  
only they will know the truth  
With open eyes  
we will rise again  
so we raise our glass  
to the fallen kin In this little town  
You see a thousand lives get torn up and turned around  
whooo-o-o-oaa  
In this little town  
I can feel your heart still beating from underground  
whooo-o-o-oaa In this little town  
You see a thousand lives get torn up and turned around  
whooo-o-o-oaa

In this little town  
I can feel your heart still beating from underground  
whooo-o-o-aaa
