

Ever (Foreign Flag) [Radio Edit]

Team Sleep

You make that dance look so new
And I'm on a face like you've never seen
I'm yours tonight
So come onLight up the stage
So we can all take off anywhere
We'll never come back everYou wear that cast so cool
And I'm on a face like you've never seen
Before around
So come onLight up the stage
So we can all take off anywhere
We'll never come back ever
