

# Livin' In The U-s-a

## Great White

Well, I used to work the graveyard  
Used to have to paint the stones  
Now I clean the farmyard  
Have to lick it clean alone I got a wife and kid  
Sharin' an econoline  
We keep the sucker hid  
Underneath the Hollywood sign You know I do alright  
Oh yeah, and it's okay  
I'd like to kill the light  
I'd love to sleep all day Livin' in a dream  
Livin' in the U.S.A.  
Livin' in a dream  
Livin' in the U.S.A. And I used to have a penthouse  
I used to have a wife like you  
Now I keep the door locked  
Her attorney's tryin' to break in to Everyone's aboard  
It's quite the social set  
And they leave me Polaroids  
Of everyone I never met You know they do alright  
It's the all American way  
They like to stay all night  
Oh, they love to drink all day Livin' in a dream  
Livin' in the U.S.A.  
Livin' in a dream  
Livin' in the U.S.A. Purple mountain majesty  
Crumble into the sea  
Spirit of the spacious skies  
Shine your grace on me Livin' in a dream  
Livin' in the U.S.A.  
Livin' in a dream  
Livin' in the U.S.A. Livin' in a dream  
Livin' in the U.S.A.  
Livin' in a dream  
I'm livin' in the U.S. of A.
