Screws Get Loose

Those Darlins

I got on the plane
cuz i was goin insane
And I took a little trip outta town
the plane it started shaking
my stomach started aching
and i thought that it was going downThe plane it finally landed i could hardly stand it
just put both feet on the ground
i should've took my meds, man
all these dirty kids man
pushing each other aroundCan't blame me for what I choose
whoaa screws get loose
can't change me after all the abuse
whoaa screws get loose
can't blame me for who i use
whoaa screws get looseOh i went to a doctor
i guess i musta shocked her
when i told her what my trouble's about
She didn't understand me
said I'm too demanding and
they don't just hand that stuff outThe sun and the shine was a-rattlin my mind
so i got underneath the ground
The subway was a-stinkin and
my brain just wasn't thinkin
and I rode it to the outskirts of townCan't blame me for what I choose
whoaa screws get loose
can't change me after all the abuse
whoaa screws get loose
can't blame me for who i use
whoaa screws get loose
whoaa screws get loose
whoaa screws get loose
whoaa screws get loose...
