Key Chain

Slaid Cleaves

I had plenty of keys on my key ring
A beautiful home I had every(D)thing
With a lovin wife and a car to drive
I came home from work every day at fiveAnd one by one I started losin them keys
My darling wife I just couldnt please
My boss got on my nerves one day
I knew that I was on my waychorus:
I lost my wife, I lost my home
Quit my job, and set out alone
With just one key on my key chain
Im gonna start all over againShe finally decided we just couldnt be
She wanted things I just couldnt see
She said, Im tired of waiting around
She took the last train out of townRepeat chorusWell the bankers came and took the key to my home
Just one key left from all I ever owned
Im turning that key lettin out the clutch
I never did like this town that muchRepeat chorus
