

# Light a Candle

## Ducktails

Light a candle for the two of us  
Let it burn until it fades to dust  
As the glow reflects into your eyes  
We'll make a promise until the end of timeLet's burn this city to the ground  
And dance upon the ashes  
Then no one will be around  
And we'll have no distractionsLight a candle for the two of us  
Let it burn until it fades to dust  
As the glow reflects into your eyes  
We'll make a promise until the end of timeWhen everything's a lie  
Just sit and shut your eyes  
The truth is hard to find  
Young child  
Let's burn the city to the ground  
And dance upon the ashes  
Then no one will be around  
And we'll have no distractions
