Leave the Light On

Johnathan Rice

You started over yesterday
In dirty rain, the sky was so gray
You listen to the engine sing
And you forget about everythingLet the sun shine
Like it's never shined
Across a blue sky
And watch the time flyFree all the lonely boys who loves no one
And dream on through the years
And leave the light on
Leave the light onYou never felt a night so cold
Your angry eyes were tightly shut closed
You fell out of love with rock and roll
You shot a hole in your radioLet the sun shine
Like it's never shined
Across a blue sky
And watch the time flyFree all the lonely boys who loves no one
And dream on through the years
And leave the light onFree all the lonely boys who loves no one
And dream on through the years
And leave the light onFree all the lonely boys who loves no one
And dream on
Come what may, I'll leave the light on
I'll leave the light onDon't you dream on, dream on, dream on, dream on
Don't you dream on, dream on, dream on, dream on
