Dying Nation

Love Like Blood

Dark clouds over this nation
They are dark like once before
They are the same slogans again
A sense of new honourThey spread forbidden thoughts
A spirit of another time
To build up another state
To build up another crimeAnother crime
But we are not to die in this dying nationIgnorance and bigotry, are the things we gotta stop
If it carries on this way they will never give it up
There's of other bullshit apart from the red white and blue
Theres a lot of people thinking the same way as we doAnother crime, another crime
But we are not to die in this dying nation
Another crime, another dying nation
But we are not to die in this dying nationRidiculous bubbled phrases
Of a rotten red hypothesis
An anarchistic decleration to build up another crimeAnother crime
But we are not to die in this dying nation
Another crime, another dying nation
But we are not to die in this dying nation
