# Whirlwind

## Kill Hannah

yeah it's time to go and fade
oh some may say
you're just kissing your life away
we can't see, we've shut our eyelids tight
and we can't stop this tidal wave at all
it's like a whirlwind
coming to take us away
it's like a whirlwind
and we musn't be afraid
it's so hard to heard your sound
she said my head spins light
when you are helping try to hold the ceilings down
/--missing lyric--/
and shut our eyelids tight

it's like a whirlwind
coming to take us away
it's like whirlwind
a thousand towers sway
it's like a whirlwind
it is a whirlwind
it's like a whirlwind
it's a whirlwind
take us away
take us away
it's gonna take us
it's gonna take us
it's gonna take us away
