

Save a Little Room In Your Heart for Me

Eddie Money

Well, some people have all the luck somehow
Seems they've found someone to love
But for me it just don't seem to work out, no-how
In this world of push and shove Save a little room in your heart for me
Save my pictures with your memories
Save a little room in your heart for me
And I'll be there eternally
Eternally Well, old faces and old places don't bother me
Like they seem to bother you
Well, we've had our day, no more sorry's to say
But there's just one more thing I want you
I want you to do Save a little room in your heart for me
Save my pictures with your other memories
Save a little room in your heart for me
And I'll be there Some people have all the luck somehow
Seems they've found the one they really love
But for me, but for me it don't work out, no-how
In a world of push and shove, baby Save a little room in your heart for me
Save my pictures with your other memories
Save a little room in your heart for me
Save my pictures with your other memories Just a little room
Just a little room in your heart for me
Save a little room
Save a little room in your heart for me Yeah, a little room
Yeah, some sorry little room
Yeah, yeah
A little room, a little room
