

# Modern Drummer

## Ungdomskulen

Dont be shy, I dig your style  
You can play it all and you are always  
tight

Hi, I feel that your fills are real  
You fill up the void that we all have  
inside

So, please don't loose your flow  
So, please don't loose your flow  
So, please don't loose your flow  
So, please don't loose your flow

All those gadgets, please don't loose  
your soul

All those presets, please don't loose  
your rolls

All those feedbacks, please don't loose  
your flow

All those drum-mags, you will let them  
know

Clouds unite, as your drums grows loud  
Lightning strikes each time you play  
your flat 4/5 ,5/9

Hi, I bet that you can play a set  
With both your hands tied tightly behind  
your arched back
