

Happening

[Olivia Broadfield](#)

I dont know how to say stop before you do
And I dont know where I should look
I dont know to stay calm like you do
And I dont know where I should look Whatever's happening, is happening here
and Im a fool for thinking otherwise
Whatever's happening, is happening here
and Im a fool for thinking otherwise I was just thinking the same as you were
And I just was just taking my time
And I was just looking for outs like you were
And I was just falling in line Whatever's happening, is happening here
and Im a fool for thinking otherwise
Whatever's happening, is happening here
and Im a fool for thinking otherwise Soon it will be love
And soon it will be love again
Soon it will be love
And soon it will be love again Whatever's happening, is happening here
and Im a fool for thinking otherwise
Whatever's happening, is happening here
and Im a fool for thinking otherwise
