

# What Time Is It?

**Marshall Crenshaw**

What time is it?  
I've just got to know  
What time is it?  
Three more hours to go  
Till I hold her in my arms  
And tell her that I want her for my own  
What time is it?  
Tell me once again  
What time is it?  
Two more hours and then  
I'll kiss her lips  
While the magic of the moonlight makes her mine  
Better hurry up and put my tie on  
Better hurry up, it's almost time  
What time is it?  
Just one hour more  
What time is it?  
Now I'm at her door  
And my heart is beating fast  
The moment's here at last  
What time is it?  
It's time for love
