# All I Want

## Will Young

So slow, I can't see how
You live in fear of life
Baby, what a day, baby, what a day
Under these skies, it ain't over
All I want is to get you on your own somehow, yeah
If you're one of those then you're one of those
Make up your mind, 'cos it's working
All I know is I'll get you on your own somehow
See now I choose your smile
Is cheer uncool in life?
Baby, what a day, baby, what a day
Under these skies, it ain't over
All I want is to get you on your own somehow, yeah
If you're one of those then you're one of those
Make up your mind, 'cos it's working
All I know is I'll get you on your own somehow
Say what you got
And you say what you need
Say what you got
And you say what you need
Say what you got
And you say what you need
Say what you got
And you say what you need
Say what you got
And you say what you need
Say what you got
And you say what you need
Say what you got
And you say what you need
Say what you got
And you say what you need
Say what you got
And you say what you need
Say what you got
And you say what you need
Say what you got
And you say what you need
Say what you got
And you say what you need
Say what you got

And you say what you need
See how I can, you comfort me
Baby, what a day, baby, what a day
Under these skies, it ain't over
All I want is to get you on your own somehow, yeah
If you're one of those then you're one of those
Make up your mind, 'cos it's working
All I know is I'll get you on your own somehow, somehow
