

Let Me Be Your Witness

Marc Cohn

When your longest night is coming down
When pieces of you hit the ground
When every word they say about you is a lie
When they put your soul up for review
When they're set on turning every screw
Just call on me and I will testify
Let me be your witness
Let me be your witness
Let me be your witness
When no one sees and no one hears
Your secret heart, your bitter tears
When it feels like you're just sinking in the sand
When you can't remember who you are
When you wonder how you came this far
Just call my name and put me on the stand, hey
Let me be your witness
Let me be your witness
To your mystery
To your ecstasy
To the tears you cry
I will testify
To your longest night
To how hard you fight
To your inner light
A higher place
Your grace, to where you are
And to who you've been
Into Jesus, Jezebel
To your heaven, to your hell
Let me be your witness
Let me be your witness
To your longest night
To how hard you fight
To your mystery
When your back's against the wall
When you got no friends at all
(Let me be your witness)
When you got no friends at all
(Let me be your witness)
Put me on the stand , baby
Put me on the stand , baby
Put me on the stand , baby
(Let me be your witness)
Put me on the stand , baby
Put me on the stand , baby
Put me on the stand , baby
(Let me be your witness)
Let me be your witness
Let me be your witness
