

That's What Love's About

Stacie Orrico

I've been thinkin' how to step to you
And still try my best to keep my cool
And make sure that I don't break the rules
(While I try to solve a mystery)
Now it seems that everybody knows
But it seems not everybody shows
That love is the only way to go
(No, it doesn't matter what you see) All I want is for love to live
Let's learn to give love, love When he is down you should help your brother
When it comes around, we should help one another
Help build him up when he's down and out
(Ask what you can)
Do when you see he needs help from another
When it comes around we should help one another
Help build him up when he's down and out
That's what love's all about What love's about, what love's about
What love's about I'll keep tryin' hard to help you see
'Cause I really wanna' make you see
Help you understand what love can be
(If you'd only, only just believe)
Is there anyway to keep it real?
While I try to tell you what I feel
And make sure you really know the deal
(So can anybody talk to me) All I want is for love to live
Let's learn to give love, love When he is down you should help your brother
When it comes around we should help one another
Help build him up when he's down and out
(Ask what you can)
Do when you see he needs help from another
When it comes around we should help one another
Help build him up when he's down and out
That's what love's all about What love's about, what love's about, what love's about
What love's about? I'm callin' everyone around me
Won't you please, please, oh tell me?
What can make a bond grow stronger
Love can, love can When he is down you should help your brother
When it comes around you should help one another
Help build him up when he's down and out
(Ask what you can)

Do when you see he needs help from another
When it comes around we should help one another
Help build him up when he's down and out
That's what love's all about When he is down you should help your brother
When it comes around you should help one another
Help build him up when he's down and out
(Ask what you can)
Do when you see he needs help from another
When it comes around we should help one another
Help build him up when he's down and out
That's what love's all about What love's about, what love's about, what love's about
Ask what you can
What love's about, what love's about, what love's about
That's what love's all about
