

One Woman Army

Ciara

Attention! I like a man who's nice and sweet
But he can stand at attention
I like a man who's down for me
Yeah he seduce me like a soldier I put my heart up on the front line
I took a bullet, I've been shot down
I'm a little bit stronger this time
Only a soldier can have me now
If you can bring it, baby I'm all yours
Get in the battle and win this war
So let me see if you can handle it, handle this
Hey! If you want my love, you better march to the beat woah
Fight for my love, you better stand up for me woah
If you want my love, well that's how it's gotta go woah ooh
Oh oh oh all my ladies say If you want my love, you better march to the beat woah
Fight for my love, you better stand up for me woah
If you want my love, well that's how it's gotta be woah
I'm a one woman army Left, right, left, right, get it right, yeah oh
Left, right, left, right, get it right, yeah oh
Left, right, left, right, get it right, yeah oh
Better march to the beat
I'm a one woman army I'm that girl who's nice and sweet
But I can put it down hard yeah (ooh)
And I can hold my own independently
But I'm still looking for a partner, yeah So can you put out on the front line
Take a bullet for me right now?
