

# She's Into Me

## Smash Mouth

I can't help lookin' her direction  
She's got all of my attention  
The way she says hello,  
She can make it a perfect day  
She knows all the boys are talking  
About the way, the way that she is rocking  
Those jeans and a t-shirt  
But she don't look their way  
She is everything and more, oh yeah  
That this boy is looking for  
She's got eyes that are brighter than a summer sky  
And a smile that could stop a war  
No surprise seeing heads turn when she walks by  
Kind of beauty that you can't ignore  
When she laughs all the worry in the world is gone  
She is truly in a different league  
She's amazing  
And she's into me  
Lips like sugar coated gum drops  
Code red, I think she made my heart stop  
Gonna tell her I love her  
As soon as I can catch my breath  
There ain't no way that I deserve, oh no  
Someone as wonderful as her  
Cause she's got eyes that are brighter than a summer sky  
And a smile that could stop a war  
No surprise seeing heads turn when she walks by  
Kind of beauty that you can't ignore  
When she laughs all the worry in the world is gone  
She is truly in a different league  
She's amazing  
And she's into me  
And every time I'm with her  
All I want the world to know is that she's my girl  
Just like a hit record toppin' every one of the charts  
Cause I just wanna wrap my arms around her  
I swear I'll never let her go  
She's got eyes that are brighter than a summer sky  
And a smile that could stop a war  
No surprise seeing heads turn when she walks by  
Kind of beauty that you can't ignore  
When she laughs all the worry in the world is gone  
She is truly in a different league  
She's amazing  
Oh, she's amazing  
Yeah, she's amazing  
And she's into me

She's into me  
She's into me
