Night Screamer

Stratovarius

Scream at nights
But you won't be heard
It's deep inside
The pain within your headYou cry for help
The torture won't let you go
Your mind is aching
And you can't go onReaching for window
Your execution
Is the only solutionNight screamer
Night screamerAfraid at nights
There's nothing to be afraid of
Your nightmares
Won't leave you aloneTry and think hard
What's wrong in your life
Try and stay cool
You'll find peace of mindReaching for window
Your execution
Is the only solutionNight screamer
Night screamer
Night screamer
Night screamerNight screamer
Night screamer
Night screamer
Night screamer
