It's Better People

Oasis

It's better people love one another
'Cause livin' your life can be tough
It's better people speak to each other
Your shame is not enoughIf everybody came alive
And stayed alive
And lived their lives instead
YeahSo come outside and feel the light
It's cold inside
But it's lonely in your bed
In your bedAnd you thought we might be
But what you heard before
Was only sleepin' in your brainBut if you came with me
The days'd never end
Would never be the same
(Same)They'd never be the same
(Same)
They'd never be the same
(Same)
Never be the same
(Same)It's better people love one another
'Cause livin' your life can be tough
It's better people speak to each other
Your shame is not enoughIf everybody came alive
And stayed alive
And lived their lives instead
YeahSo come outside and feel the light
It's cold inside
But it's lonely in your bed
In your bedAnd you though we might be
But what you heard before
Is sleepin' in your brainBut if you came with me
The days'd never end
Would never be the same
(Same)They'd never be the same
(Same)
They'd just go by a different name
(Same)
They'd never be the same
(Same)
