The Breakout

Rotimi A

Martin had a dream

Hov had a team

Rotimi now taking over with the new regimeI'm talking empires homie

Taking over the nation

So all the people around me betta say congratulations

Bars so good that we give the beat mutations

Somebody important that gives you the sensation

Of tasting that greatness

That fame

The lights

The glitz

The glam

Chilling with ya fam

Rotimi what they know me by Tha Winna what they called me

Gotta catch flight but the fans wanna stall me

But it doesn't come easy like the a.b.c's

Hardwork and dedication man ain't that serene

But

It just takes people that wanna make it with ya

And best believe they'll make it to the top with ya

Built this up piece by piece started From the floor

Started from the bottom with a dream

Drake issuesIm breaking out all over

Scratching from head to toe

Ever since you let me go

I just can't take no moreUh breaking out best believe I will

But it's hard to stay humble

When you have the most willBut honestly there's more to life than hundred dollar bills

Remember who you are and staying honest the new trill

Yeah

I'm breaking out four years tops

Tryna do it worldwide, not just hip-hopEverybody saying they wanna write hip-hop

Man its not that easy you just should just go and kick rocksUh we breaking out to the top

Repping Doylestown, and I'll never ever stop

Me and the crew up, grind up is what we do

Step to the mic man and the lyrics are brand new

We go hard, every bar I write man I plan on going farGuess that's why they wonder why I go there

All that hate on twitter doing nothing going no where

Can't feed the week, chill out, whoa thereIm breaking out all over

Scratching from head to toe Ever since you let me go I just can't take no moreWe on the top of the world homie Yeah We on the top of the world

Yeah we on the top of the world homieYeah this that break out flow we pull up and starting on these kids real slow
