## Great Northern

Take all your medicine
It's gonna make you well
You'll have to run till it's over
I'm sure you'll be able to tell
You'll know it's over
For the rest of my life
You're gonna be high
Come home
It's something less than a holiday
When you come home
It's something less than a holiday
They'll be sneaking up behind you again
You talked to a doctor
And he said you're well for home
Take all your medicine
Be sure you're never alone
You'll know it's over
For the rest of our life
You're gonna be high
Come home
It's something less than a holiday
When you come home
It's something less than a holiday
They'll be sneaking up behind you again
Come home
It's something less than a holiday
When you come home
It's something less than a holiday
When you come home
It's something less than a holiday
When you come home
It's something less than a holiday
When you come home
It's something less than a holiday
When you
